CHEERING UP BRITONS

Americans Giving Them Pointers on How to Hold Trade.

ADVISED TO ADOPT AMERICAN PLAN.

Carnegie Quotes Scripture and Tells The British They Must First Conquer Their Home Markets—A Rather Significant Remark.

London, May 8.—The annual meeting of the Iron and Steel Institute is attended by all the prominent engineers in Great Britain, while almost all the American engineering centers are represented, Andrew Carnegie being among those present. The new president, William Whitehill, devoted almost all his remarks to American methods, declaring Great Britain would be compelled to adopt them. He said: "We shall have to fight much harder in the future to retain our proud position."

The principal paper at the opening session was read by William Garrett of Cleveland, who prefaced his remarks by declaring Great Britain's supremacy in the iron and steel trade, so long held, was now lost. He then went into a detailed comparison of the methods of British and American rolling mills with no flattering deductions for Great Britain, and concluded with declaring that if the British steelmakers did not follow the example of the Americans by combining and also by manufacturing only at points most advantageous for shipment and using the most economical methods, the manufacture of iron and steel would become a lost art in Great Britain. "Manufacturers in Great Britain," Mr. Garrett declared, "would not spend sufficient money on mills or machinery. Adopt American methods at some of the modern plate mills in Great Britain and mark the increase in the output. To say the British workmen cannot be as active and energetic as the American workman is entirely wrong. Your falling behind is partly due to the fact that, up to the present, you have no competition. I may be wrong, but I venture to assert that during the past 10 years all British iron and steel manufacturers together did not spend as much money in improvements as the Carnegies did in two years. Is your ingenuity and energy exhausted—you who, at one time, were the greatest manufacturers in the world? I cannot believe it. In order to show you how far you are behind in the output of wire rods four of the best rod mills in Great Britain during January did not produce as many rods as one of the wire rod mills in the United States. Is there no remedy, and will Great Britain, the mother of that business, who taught the world how to make wire, give it up?" Mr. Garrett went on to point out how this condition of affairs could be remedied by consolidation.

E. D. Campbell of the University of Michigan will read a paper which will treat on the formation of carbides and silicides of iron. Among the American visitors are W. A. Bostwick of Pittsburg, J. A. Matthews of New York, W. A. Stirling of Chicago and W. H. Foster of Niles, O.

The chairman in announcing Mr. Carnegie's gift of £6,500 to the institute for original metallurgical research said Mr. Carnegie had decided to double the amount, and the council had agreed to distribute among various nationalities one-third to Dr. Matthews (American), one-third to Dr. Goldberg (Austrian), and one-third to Dr. Stansfield (English).

Mr. Carnegie subsequently, in proposing a vote of thanks for the president's address, said that in his opinion the president had put his finger on the right spot. The whole lesson of this address was: "You must look at home and develop the material you have." Mr. Carnegie believed thoroughly that Cleveland iron would make good steel. He was certain the basic process would succeed in Great Britain as it had done in America. What was said in America to the contrary had not prevented them from buying up all mines nobody else wanted. The same could be done in Great Britain. The Bible taught them, "Seek ye first the kingdom of heaven and all things will be added unto you." Mr. Carnegie said: "Seek ye first the United Kingdom and the markets of the world will be opened unto you. Get right at home and do not worry about things abroad." The way to get hold of foreign markets, Mr. Carnegie continued, was to get hold of and conquer the markets at home.

Foster in Bankrupt Court.

Toledo, May 8.—Hon. Charles Foster of Postoria, O., ex-secretary of the treasury in the Harrison cabinet and once governor of Ohio, has made application in the United States court here as a voluntary bankrupt. His debts are set down as \$747,008.34 and there are no assets.

BUCKEYE TOURISTS.

President, Governor and Companions in Land of Fruit and Flowers.

Redlands, Cal., May 8.—The presidential party is in the land of fruit and flowers. The first glimpse of California was not prepossessing, but it was a novel sight. The train was running through the bed of an ancient salt sea of the Mojave desert. It is 200 feet below the sea level and is a white sheet of incrustated salt which is plowed up as eastern farmers plow their fields. Soon after the train entered San Bernardino county, famed for its wonderful fruits, and hurried along through orange groves, orchards of citrus fruits and gardens of beautiful flowers. At every little station were groups of people.

Redlands was reached at 9 o'clock. Here great preparations had been made to welcome the president and his party. Governor Gage and the senators and representatives in congress gathered here to welcome the chief executive to California. The city was beautifully decorated. The mayor of Redlands introduced Governor Gage, who welcomed the president and extended the freedom of the state. The president's response was received with cheers. This was followed by a drive of over an hour through the orange growing section.

Mrs. McKinley and the women of the party met Mrs. Gage and the women of Redlands in the parlors of the hotel during the exercises, and were taken for a drive through the valley of San Bernardino.

Governor Nash's Party.

San Bernardino, Cal., May 8.—The Ohio special bearing Governor Nash, staff and party spent an hour here in informal receptions and sight seeing and then proceeded to Riverside, where two hours were spent before reaching Los Angeles, where the Buckeyes joined the presidential party and remain until Friday. The trip to Redlands was abandoned because the presidential party had attracted more people there than could be accommodated. A dozen members of the Ohio society of Los Angeles met Governor Nash and party here, among them being John B. Oglivee, who was auditor of state in Ohio when Governor Nash was attorney general. All the members of the reception committee were old Ohio friends of Governor Nash.

Received the Red Beretta.

Baltimore, May 8.—Sebastian Martinelli, titular archbishop of Ephesus and cardinal-elect of the Church of Rome, received at the hands of Cardinal Gibbons, Wednesday, the red beretta and donned the robes which will hereafter mark his rank. The ceremony, which is the second step in his elevation to his new position, was marked by all the pomp and brilliance usually attendant upon such occasions. It was held in the venerable cathedral, the first edifice of its kind erected upon American soil, and in which the first American priest and the first American bishop were ordained. Among those who witnessed it were men and women prominent in every walk of life, diplomats, legislators, educators, journalists and ecclesiastics of prominence.

Cuba's Commercial Interests.

New York, May 8.—Major E. F. Ladd, ex-treasurer of Cuba, who has just arrived from Havana, said he turned over \$1,800,000 to General Roloff, who had qualified as treasurer of the island. General Roloff was secretary of war for the Cuban republic. Major Ladd said that while he was in Cuba he handled in all \$40,000,000 of Cuban funds, and that his staff consisted of but 10 men. He said that the affairs of Cuba are controlled by the revolutionary party and that the commercial interests of the island would like to have the island continue under American administration, and believe that the Platt amendment will keep the new government, when it is formed, from getting into snarls with all foreign countries.

Trespass on Forest Reserves.

Fresno, Cal., May 8.—Judge Welborn, in overruling a demurrer made by sheep owners to complaints against them for trespassing on forest reserves, gave an important opinion regarding the jurisdiction of the United States executive authority over the forest reserves. He held that it could not be questioned that the government has entire authority over its public lands and that the right enjoyed by grazers of running their stock on the public domain was derived from the sufferance of executive power of the national government and not from any authorization of congress.

Washington, May 8.—The alleged statements of General Chaffee, made at General Gaslee's banquet in Peking in honor of the Americans expressing his inclination toward the British in case of international complications, have not been brought officially to the attention of the government here. Consequently the officials decline to indicate what will happen in the event that official complaint is made.

IN THE LABOR WORLD

British Miners Refuse to Strike on Account of Coal Tax.

WILL RESIST REDUCTION OF WAGES.

Although Persuaded That the Foreigner Pays the Tax They Denounced The Levy—Contentions Between Employes and Employers.

London, May 8.—Failing to reach a decision on the question of striking as a protest against the government's proposal to impose a tax on coal, the miners' conference took a recess of two hours to enable the district delegations to caucus.

The miners then decided against a stoppage of work. If the owners should attempt to reduce wages in any district another conference will be called to reconsider the question.

A resolution was adopted by the miners' conference as follows: "The miners having been told by the chancellor of the exchequer that the export tax on coal will be paid by the foreign consumer and that there are no reasons why it should effect the workmen's wages, and believing this to be the reason the house of commons so strongly favored the tax, this conference does not see its way to recommend a general stoppage of work, but recommends that if any mining district is asked to submit to a reduction of wages consequent upon the tax a general conference be called to determine whether the whole of the miners of the country should be laid idle until the reduction is withdrawn."

The resolution further condemns the tax and repudiates the alleged collusion between the miners and owners to cause a general stoppage of work.

More Lackawanna Men Out.

Utica, N. Y., May 8.—About 200 men employed in the Lackawanna shops in this city did not go to work Wednesday. The men refuse to make any statement except to the effect that they will not return to work unless the grievances of the men in other Lackawanna shops are settled satisfactorily.

Getting Back to Old Prices.

Harrisburg, Pa., May 8.—A notice has been posted at the Pennsylvania steel works announcing that, beginning June 1, the wages at the works will be restored to the rates in force before Jan. 1, 1901. This is an advance of about 10 per cent. The company employs nearly 7,000 persons.

Starch Trust May Lay Off.

Cincinnati, May 8.—A prominent starch manufacturer of this city says that while no order to that effect has been made by the starch trust, it is altogether likely the continued high price of corn will cause a closing of the works, temporarily at least.

Car Shops Closed.

Great Falls, Mont., May 8.—The Great Northern repair shops have been ordered closed because of the strike of 40 men for better wages. The company refused to grant the demand.

German Coppermiths Strike.

Hamburg, May 8.—The coppermiths struck, but the threatened ship-building lockout was not declared. Work is proceeding at all yards.

Genoa Strike at an End.

Genoa, May 8.—The dock laborers who have been out on strike have returned to work.

Augusta Has a Scorching.

Augusta, Ga., May 8.—A fire which broke out at 1:30 p. m. did considerable damage. The great cotton warehouse of the Union Compress company was destroyed, and the warehouses of Phinizy & Co. and S. M. Whitney also were the prey of the flames. The losses are estimated as follows: Union Compress company, \$100,000 on building and \$320,000 on cotton; Phinizy & Co., \$50,000 on building and \$80,000 on cotton; Whitney & Co., \$5,000 on building and \$120,000 on cotton. Phinizy & Co own the Whitney building.

Protest to the Porte.

Constantinople, May 8.—The ambassadors of the foreign powers have despatched identical notes to the porte characterizing the seizure by the Ottoman postal authorities of foreign mail bags as a breach of international law and holding the porte responsible for the consequences. One of the mail bags opened Sunday contained dispatches of the German ambassadors.

Pursuing a Fiend.

Leavenworth, Kan., May 8.—Ethel Bonnie, the 18-year-old daughter of G. W. Bonnie, engineer at the state penitentiary, who was assaulted by an unknown white man and thrown into a well, is still alive, but it is not believed she can recover. Her assailant is still at large, although posses are scouring the country for him. He will probably be lynched if captured.

THAT DURKEE CLAIM.

Treasury Department Aroused by an Attempt to Bluff Gage.

Washington, May 8.—The treasury department is preparing a letter to the postoffice department asking that a fraud order be issued against parties representing themselves as interested in the Durkee claim. This is an old claim dating back to Pacific railroad days, Durkee at one time being governor of Utah territory. The original amount was \$64,000,000. The case has been in the court of claims and more recently in the supreme court of the District of Columbia and rejected.

A lawyer called on Secretary Gage with two witnesses and made a demand for \$79,000,000. "What do you intend to do about it?" the lawyer asked. "I refuse to pay it," responded Secretary Gage, "for the reason that I would be subject to impeachment and imprisonment." "Very well," retorted the lawyer, "I have witnesses to your refusal."

It is stated at the treasury department that many persons have been induced to buy stock in this "Durkee claim," and for that reason it is proposed to ask for the fraud order.

FUTURE FARRAGUTS.

Course Laid Down to Be Followed at The Naval College.

Washington, May 8.—Assistant Secretary Hackett has made public the following outline of the course for 1901 of the naval college: It is proposed to have officers attending the course report June 1. The course will begin Monday, June 3, with an opening address by the assistant secretary of the navy. The course will end Sept. 28. The first week will be devoted to an explanation of the course, and the war games and the lectures of Captain Mahan on strategy will be read by the college staff. The subjects connected with the main problem of the year will follow. The course in international law will be in charge of Professor John Bassett Moore of Columbia university, who will lay down a series of cases from time to time, the solutions of which will be handed in by the four committees into which the officers and attendants will be divided. Besides the series by Captain Mahan there will be lectures by prominent men in public life.

Vanderbilt Wins.

New York, May 8.—There is excellent authority for the statement that William K. Vanderbilt has carried the day in the contest for the control of the Union Pacific railroad, and that he intends to put through his plan for annexing it to the Vanderbilt system. His idea is that it shall be controlled by the Chicago and Northwestern and New York Central jointly, with a guarantee of 6 per cent on Union Pacific common stock and possibly an exchange of 3 per cent bonds, issued jointly by the Northwestern and New York Central, in exchange for Union Pacific common stock. There may be some change in this last feature.

German View of Wall Street.

Berlin, May 8.—The Frankfurter Zeitung, an organ friendly to the United States and an authority on financial affairs, discussing Wall street events, regards the situation as dangerous, since outsiders are speculating on credit. The paper expresses fear that all earnest warnings will have no effect so long as the speculative craze is whetted by all sorts of fusion and combination projects. It admits that the business situation is excellent, except as regards textiles, but finds no justification for the present madness.

Ohio Incorporations.

Columbus, O., May 8.—New Century Building and Loan company, Cleveland, \$500,000; Citizens' bank, Higginsport, \$25,000; Kay & Ess company, Dayton, \$25,000; Gwynne Central Station Heating company, Delaware, \$30,000; Fishback Plaster company, Toledo, \$30,000; State Savings Bank company, Toledo, \$50,000; Farmers' and Merchants' Bank company, Bellaire, \$50,000.

Cottonseed Combine.

Norfolk, Va., May 8.—An effort is being made to organize a combination embracing the cottonseed crushers of the south. The object of the proposed combine, it is understood, is to control the market for cottonseed and its products. No details are yet available for publication.

Indemnity Cut Down.

Washington, May 8.—Information has been received here concerning the dispatch from Peking regarding the amount of indemnity to be demanded. The total has been reduced from something like \$500,000,000 to \$337,000,000.

San Juan, P. R., May 8.—The steamer Caracas, which arrived here from South America, reports that an important revolt broke out May 4 at Coro, capital of the state of Falcon, and was quelled by a gunboat and troops. Hawaiian emigrant agents are again working here and an expedition is probable May 20.

A HARD BLOW TO OHIO.

Billion Dollar Steel Combine Will Close Many Plants.

OPERATIONS ARE TO BE CENTRALIZED

Employees Will Naturally Gravitate to The Employment Center—Canton, Cambridge, East Liverpool and Other Ohio Cities Concerned.

Pittsburg, May 8.—It is announced that the United States steel corporation has adopted the policy of centralizing operations, of abandoning its smaller plants, those disadvantageously located and those that cannot be run economically. The work heretofore done at these plants will be transferred to those that can be operated to the advantage of the company. To work out some of the details of this policy operating heads of the concerns of the United States steel corporation have been in conference in New York. Undoubtedly the plan will revert with greatest benefit to the Pittsburg district, as it is the most favored of all in which the United States steel corporation operates.

Adoption of this policy of centralizing operations by the United States steel corporation will mean to the Pittsburg district, if carried into effect without delay, the bringing here within a year of about 50,000 mill men from plants of the company that will be abandoned. Massing of much more of the operations of the company in Pittsburg will not only add to the number of mill men employed here, but the plant, from which the most important supplies of raw material are drawn in this district will also take on more men to do the work.

The underlying companies of the new Morgan combine have been working toward the same plan of mobilizing operations and abandoning the isolated and smaller plants and those that cannot be operated economically. The American Bridge company has had plans drawn for a new \$1,000,000 plant to be erected in the Pittsburg district. The American Bridge company has its plants scattered through the east at points where they are at a disadvantage to operate, and some are considered for abandonment.

Recent announcement that the American Sheet Steel company had given up its plan to operate the new and costly plant at Chester, W. Va., was a reflection of the new policy of the new Morgan company. The equipment of this plant will be taken to Vandergrift, where the most modern plant of the company, the Apollo Iron and Steel company, is operated.

Since the Sheet company formed it has abandoned a number of its plants of lesser importance and nearly all of the apparatus of these was sent to Vandergrift. Other plants of the company, located at Cambridge, East Liverpool, Coshocton, Denison, Dresden, Niles, Canton, Canal Dover and Piqua, O., and Carnegie and Hyde Park, Pa., are among those which are being considered as best to abandon and their equipment to be centered in a larger plant at Vandergrift. The Sheet company is now about two months behind on its orders, and the centralization of its scattered plants will take time.

For the American Steel and Wire company this United States steel corporation is expected to carry out the plan of the wire company to centralize all operations possible at Neville Island, where \$10,000,000 works are being built. This has already led to the abandonment of plants at Worcester, Mass., and is expected to be followed with works at Cincinnati, O., the Portage works at Newburg, N. Y., and the works at Everett, Wash.

Of the American Tin Plate company's works those at Agnew and Johnstown, Pa., and Canal Dover, O., are expected to be among those to be centered at New Kensington, along with the Pittsburg works mentioned. The Carnegie Steel and the Federal Steel company's works are expected to remain much as they are.

Of the National Tube company's plants among those considered for abandonment is the Pennsylvania tube works, which, although one of the most important of the company, is not economical in operation.

Brisbane, Queensland, May 8.—A search party returning from New Guinea discovered the half-eaten remains of the Rev. James Chalmers and the Rev. Oliver Tomkins of the London Missionary society and their followers who were massacred in April by natives of Fly River, New Guinea, after a tribal fight.

Kicked Out of Korea's Cabinet.

Yokohama, May 8.—Reports received here from Seoul say the emperor of Korea refuses to indorse the loan of the Yun-Nan syndicate, and Minister Chopwongsik, the chief advocate of the loan, has resigned.

GOVERNOR BECKHAM should make short work of that crowd of officials at the Hopkinsville asylum. The good of the institution demands that there should be a clean sweep.

AMONG the items of increase proposed in the British revenues, to meet the deficit occasioned by the Boer war, is one of \$55,000,000 from incomes of the rich. We don't do things that way in this country. When revenue was wanted, the taxes go on the necessities of life where they weigh heaviest on the poor man. An exchange well says, "No one is better able to pay taxes than the man with the income, but he escapes."

THE STORY OF THE PAPER TRUST.

The Industrial Commission has listened to no more instructive testimony on trusts than that given before it by Mr. John Norris, the business manager of the New York Times.

The International Paper Trust was the subject of Mr. Norris's testimony. He showed that for eighteen years prior to 1897 there had been a steady fall in the price of news print paper. It fell from 9 cents a pound to 1 1/2 cents a pound within that period. This cheapening of paper was, he pointed out, of broad public benefit, because it reduced the cost of newspaper production and made possible the enlargement of daily and Sunday editions at a lower retail price per copy. So that a tax on paper is a "tax on knowledge."

In December, 1898, Congress was brought to put higher duties on wood pulp and paper to protect the American paper mills from Canadian competition. The duties were raised to a prohibitive point. The promoters of the paper trust gave the most positive assurances, Mr. Norris said, that the consolidation of the independent mills was not intended to raise the price of news print paper. He quoted the exact words of the late Mr. William A. Russell, of Massachusetts, the creator and first President of the combine, to the effect that \$1,500,000 would be saved by reduction of the working force, that a large export paper trade would be developed, and that a policy of enlightened self-interest "would impel them to keep prices down."

Such were the professions and promises with which the paper trust began its career. Mr. Norris declares that "every expectation it held out to newspapers and the public" had been disappointed. "The promised policy of an enlightened self-interest has been entirely abandoned," he said, "and the net result to newspapers has been an increase of over \$4,800,000 per year in the cost of paper."

THAT ASYLUM SCANDAL.

Dr. McCormick, Discharged Superintendent, Brings Serious Charges Against Dr. Lackey—Personal Encounter Between the Two Expected.

HOPKINSVILLE, Ky., May 8.—Dr. Walter A. Lackey, Acting Superintendent of the Western Asylum, emphatically denies Dr. McCormick's charges of immorality against him. He says he is not ready to give out a public statement at present.

The asylum Commissioners refuse to make Dr. McCormick's report public, but the substance of it published yesterday was correct in every detail.

Dr. McCormick is still at the asylum, but will return with his family to Owensboro Thursday.

Friends of both men say they fear a personal encounter between Lackey and McCormick growing out of the latter's charges.

Dr. McCormick charges that Acting Superintendent Walter Lackey, after a dance on the night of December 31, 1900, entered a room in the institution with a female attendant, turned out the lights and remained there two hours. He named two male attendants who, with himself, witnessed this act.

He files the affidavits of Misses Fambau and Carter, attendants, who say Lackey tried to bribe them by offer of silk dresses to associate with the attendant after her ostracism, and on their failing threatened to cause their discharge.

McCormick says he found a letter written by Lackey to her couched in passionate terms. He says he remonstrated with Lackey, who promised to end his intimacy with the woman.

McCormick charges that State Inspector Henry D. Hines and certain asylum officials had repeatedly gambled at the institution, shooting craps and playing poker. He alleges that Dick Robinson, the Supervisor, defaced Gardiner Hall by covering the name of former Superintendent Gardiner with plaster of paris. McCormick says some of these facts came to his attention weeks ago and he endeavored to correct them without public scandal, but was forced from his position before he could do so. He reiterates that his dismissal was the result of a conspiracy.

FRANKFORT, Ky., May 8.—Governor Beckham and family returned to-day from Bardstown, where they have been spending several days. State Inspector Henry Hines also returned. The charges which Dr. E. B. McCormick makes against Dr. Walter Lackey and others in connection with the Hopkinsville Asylum scandal have not been filed with the Governor, but in case they are filed the Governor will order an investigation of them.

Some of the Governor's closest friends are advising him to make a clean sweep at Hopkinsville by removing all of the present asylum administration.

Dr. Wright, of Bowling Green, and Dr. C. C. Owens, Superintendent of the Feeble-minded Institute here, are among those most widely mentioned in connection with the vacancy caused by McCormick's removal.

Notice was published yesterday of the death of Mrs. J. S. Lee at her home near Rectorville. It transpires, however, that the report was not true. Mrs. Lee, who had been very ill some time, had a sinking spell yesterday morning and it was thought she was dead. One of her sons who was in Maysville received a telephone message, and furnished the BULLETIN with the news of her death. His joy may be imagined when on returning home he found his mother had rallied. She was somewhat improved at last accounts.

Mr. Thomas Gibbons, of Minerva, and Miss Lizzie Fitzgerald, of Germantown, were married Wednesday.

At St. Louis Ida Baare killed her father, Gustave Baare, 50, bailiff of school board, and suicided on account of her mother's mistreatment by him.

Fought for His Life.

"My father and sister both died of consumption," writes J. T. Weatherwax, of Wyandotte, Mich., "and I was saved from the same frightful fate only by Dr. King's New Discovery. An attack of pneumonia left an obstinate cough and very severe lung trouble, which an excellent doctor could not help, but a few months' use of this wonderful medicine made me as well as ever and I gained much in weight." Infallible for coughs, colds and all throat and lung trouble. Guaranteed bottles 50c. and \$1 at J. Jas. Wood & Son's drug store.

PERSONAL.

—Hon. R. K. Hart, of Flemingsburg, was in Maysville Wednesday.

—Mr. George Fischer, of Cincinnati, visited Miss Katherine Gleason the first of the week.

SCHOOL BOOK TRUST.

Rand, McNally & Co., a Chicago Publishing House, Fighting the Combine in Kentucky—Won First Clash.

FRANKFORT, Ky., May 6.—This city has been the headquarters for the school book men for the past few months, and representatives from all the leading publishing houses have had their representatives here. It is perhaps known that each county in the State must adopt a series of text books for the use of the public schools every five years, and during this year such adoptions must be made in a number of counties. The adoptions are made by the County Superintendents and two examiners of the Superintendent's choosing.

Owing to the presence of all the book men, the fight in this county was unusually lively, and the competition was brisk. After a patient hearing of the book men's stories and a careful examination of all the text books, the Franklin County board, in all the changes made, adopted school books from the publication of Rand, McNally & Co., of Chicago.

This firm has entered the Kentucky field for a vigorous fight for business, and to give competition in school books to the parents of Kentucky. Their books are all new and up-to-date, embracing the thought and experience of the best teachers of the country.

As is well known, this State has for years been under the domination of the book trust, owing to the restrictions thrown around the entrance of new companies by the State law.

It is a well established fact that Kentucky pays more than any of her sister States for school books, although using old and out-of-date text books. Seeing this, Rand, McNally & Co. thought it a good field for business, and equipped with the best books has made a good beginning in the county containing the capital city, whose wide-awake Superintendent saw the benefits to inure to the children by the adoption of the best books.

While the company has not sacrificed quality of text and workmanship to price, yet the prices charged are much cheaper than those of similar grades published, and in this particular will result in a material saving to those who have children to educate. The low prices also fixed for the exchange of old books for the new series and the introductory prices offered will make the cost of exchange easy and not a burden.

The company employs nothing but union labor in the mechanical work of making the books, and thus not only guarantees good work, but also well paid wages to its employees.

CIGARETTES INJURIOUS.

Lexington College Professors Say That Smokers Usually Fail in Their Studies.

[Lexington Herald.]

Since the cigarette has become an article of common consumption in this country, and in fact, the world over, there have been countless discussions as to the exact nature of its effect on mind and health. While the majority of persons have conceded that it is injurious, there are many who question the extent of the injury.

In a recent conversation with a Herald reporter, Prof. R. H. Ellett, who occupies the chair of mathematics in Kentucky University, and who thereby has been able to study daily for years the minds of students, made the following startling statement:

"Almost without exception, my students addicted to the habitual use of cigarettes are unable to make any progress in higher mathematics. They may pass without great difficulty freshman and sophomore years, but when the junior and senior years are reached and deep and continued thought is required, they struggle, often manfully, waver and fail. This fact has so often been brought to my notice that it has become my custom each year to warn my classes against the use of tobacco, and especially cigarettes.

"When I see a man beginning to show signs of failure, if able, I attempt to learn the cause. If it is simply mental incapacity, or because his bent is not in that direction, of course I can do nothing. But when I find that he uses cigarettes, I speak to him privately and tell him that he must give up cigarettes or else the hope of passing. I am not a physician but my experience has taught me that the continued use of cigarettes cripples deep mental exertion."

Mrs. Margaret Pfeiffer, of Ripley, has been granted a pension, the arrearages amounting to \$1,300.

RIVER NEWS.

Hungry Politicians Want Major Crumbaugh Removed From Ohio—New Ruling as to Shantyboats.

Keystone State, Urania and Stanley up to-night. Down, Courier.

The fast little sternwheeler Excel has entered the Vanceburg-Maysville trade as a daily packet.

The L. D. Poor made her trial trip a few days ago to Manchester, and her machinery proved satisfactory in every way. She is a gasoline boat, is owned by Mr. L. D. Poor, of Aberdeen, and a neat little craft she is.

The Florence Marmet is fast making herself a record. She left Point Pleasant at 3 p. m. Sunday, with a tow of twenty-eight coal barges, one coal boat and eight flats, a total of thirty-seven pieces, made two way landings, making the run from Kanawha to Cincinnati in thirty-six hours.

It is reported at Pittsburgh that a number of Ohio politicians desire the removal of Major S. R. Crumbaugh, Supervising Inspector of the Ohio river between Pittsburgh and Cincinnati, and a resident of Kentucky. It is said those who desire his removal claim he is not a resident of the district of which he is in charge. The position pays \$3,200 a year.

The W. W. O'Neal, with a tow of thirty-one pieces, ran her tow against pier No. 5, of the Louisville and Nashville railroad bridge at Henderson Wednesday, sinking four barges of coal. The pilot was fearful of the towboat pilots' nightmare, pier No. 4, which has sunk over 250,000 bushels of coal during the present high water, and in his efforts to steer clear of it struck No. 5.

While the river is falling at Pittsburgh, the coal combine has decided to take advantage of the opportunity and rush repair work on some of its craft. The Ironsides, Exporter and Joseph Walton are to have new hulls built under them. After these improvements are completed, the boats will be given a general overhauling. As rapidly as possible the combine will renovate nearly all its boats.

Judge Boone, of the Columbiana County Probate Court, has decided that a boat house in the Ohio river, tied up to the Ohio shore, was properly subject to the police regulations of Ohio, although the boundary line runs at low water mark on the Ohio side of the river. The question was brought to issue by a charge of keeping a house of ill repute being brought against Charles Gallagher by the authorities in East Liverpool, O. The house in question was a shantyboat in the Ohio river, but tied up at the East Liverpool wharf. The question arose also as to whether a shantyboat can be considered a house of ill fame under the statutes. The court decided both questions by fining Gallagher \$100 and ordering the nuisance to be abated.

Attention, Knights.

The Chesapeake and Ohio observation parlor cars have just come out of the shops, after being thoroughly overhauled. They look as bright as new silver dollars, and were put in service Wednesday between Cincinnati and Hinton. The cars will be attached to Trains No. 2 and 3.

Mary R. Wells and Elbridge H. Wells, of Bayard, Neb., and Emma C. Smith, Robert R. Smith and Ella T. Smith, of Craig, Mo., have sold to Duvall G. Cooper, their undivided sixth interest in eighty-five acres on Phillips creek, for \$225.

A special from Owingsville says a company composed of capitalists of Bath County has been formed with headquarters at Sharpburg for the purpose of building telephone lines from Sharpburg to Owingsville, Mt. Sterling, Flemingsburg, Maysville, Georgetown and all intervening points.

Mr. Walter Blatterman, of St. Louis, had the misfortune to break his right leg near the ankle in getting off a street car last Sunday in that city. He writes that he is doing very nicely, and hopes to be able to come to Maysville next week and help his father out at the primary May 18th.

The comparative earnings of the L. and N. Railroad for the fourth week of April were \$729,580, against \$647,541 for the corresponding period of last year. The total for the four weeks of April is \$2,342,699, an increase of \$194,309. For the fiscal year from July 1 the total is \$24,287,680, an increase of \$983,381.

Mrs. Elizabeth Ann Stone died May 4th at the home of her son, David M. Dodge, near Paris, lacking but three days of being eighty-eight years old. She was married twice, her last husband being Kinzea Stone, who died in 1868. She leaves eight children, as follows: D. M. Dodge, of Paris; Kinzea and Newton Stone and Mrs. Lancaster, of Georgetown; H. Clay Stone, of Mt. Gilead; Mrs. Mattie Alderson, of Independence, Mo.; Mrs. Cox, of Plattsburg, Mo.; Mrs. J. H. Bell, of Chicago. Rev. Dr. Rutherford officiated at the funeral, paying tribute to deceased, as devoted member for years of Old Baptist Church, and a model as wife and mother. Woman's Horror

Modest women dread to consult a doctor about diseases peculiar to their sex. They have a horror of private examinations and surgical operations. For this reason treatment of dangerous derangements is neglected. But the Wine of Cardui treatment, which can be adopted at home without the knowledge of any one but the patient herself, is now coming into general use. Women who take Wine of Cardui do not have to submit to a physician's local examination nor to a surgical operation. Wine of Cardui cures in the privacy of the home. No publicity, no cutting and torture and no physician or examination, while Wine of Cardui is quietly building up and strengthening the female organs. Menstruation is regulated, the drains of leucorrhoea stopped and the fallen womb restored to its place. The terrible pains which rack the body are but results of the ailments, which yield so readily to the soothing properties of Wine of Cardui. The medicine that cured Miss Garlen will certainly help you.

Wine of Cardui

Rockford, Tenn., Aug. 16, 1899.
I have suffered from womb trouble for five years. Last spring a year ago I was bedfast for six months. I paid \$50 to one doctor, and he said he had done all he could for me. I had about given up, but called another doctor, who said I would have to have surgical treatment. I decided I might as well die a natural death as that. I happened to get hold of a Ladies' Birthday Almanac, and decided to try your treatment. In nine days after I commenced taking Wine of Cardui and Black-Draught I could walk across my room, and in three weeks I made myself a dress. This was after my neighbors, and even my brothers and sisters, said I would never be any better. I am now in good health.
Miss S. E. GARLEN.
